

Australian Tactiles & Braille

Product Data Sheet

Yellow Polyurethane 300*300mm Tactile Indicator

At ATB, our polymer tactile indicators are made here in Australia by injection moulds. The UV stabilising additives guarantee that the tactile indicators do not deteriorate when exposed to direct sunlight. This ensures the highest quality product on the market and can give you confidence in its longevity and durability.

These 300*300mm mats come with a self-adhesive backing for quick and easy installation.

The polyurethane tactile indicator has been tested in a NATA Qualified Laboratory resulting in a P5 slip resistance rating.

Luminance testing can be carried out upon request.

Compliant with AS 1428.1
